While some companies struggle to protect their PDF eBooks and PDF documents from unauthorized access, many are protecting their PDF documents and files easily and inexpensively. Largely because they have mastered the proven (but little-known) process of protecting their PDF documents with quick and efficient PDF protection methods.

That's the opinion of BookGuard Pro, PDF eBook security company, and designer of this new free tool, the PDF Protection Analyzer.

<http://www.BookGuardPro.com/protect-pdf-blog/142/protect-my-pdf-free-pdf-protection-analyzer>

"Small and medium sized businesses and individual PDF publishers today need solid, reliable information on what works in PDF security- and what doesn't," says Roger Hall, PDF security specialist. "As a freelance online author and PDF security specialist, I have hundreds of people contacting me asking questions such as:

- How can I structure my PDF security process to protect my PDF so my new PDF eBook won't be copied?
- How can I get more cost-effective results from PDF security?

"I designed the free PDF Protection Analyzer, to give these folks some of the answers. What makes this PDF tool different is this: it's not based upon theories or untested ideas. Each of the methods built into the PDF tool has been thoroughly tested, and proven in real-world online book and PDF document launches."

Unlike many of today's PDF services, Hall points out, this new PDF process tool has been released at no charge. "A lot of companies and individuals can't afford to hire online security consultants. And it takes time to read an entire security book, listen to a CD or attend an online security seminar," notes Hall. "This free PDF Protection Analyzer has been created for them, and takes less than 2 minutes to get."

PDF protection methods analyzed in the free PDF tool include:

- how PDF passwords may be easily compromised
- why PDF security, PDF wrapping and live monitoring of PDF access is essential for most commercial PDF documents
- where to get effective, free help on boosting your PDF protection

The PDF Protection Analyzer can be accessed online free, right now by visiting:

Protect PDF blog at:
<http://www.BookGuardPro.com/protect-pdf-blog/142/protect-my-pdf-free-pdf-protection-analyzer>

The free PDF Protection Analyzer is available to all companies - both large and small - as well as individuals, 24 hours a day, seven days a week.
